"The South 40"

Within the past two weeks we've attempted to determine the amount of damage from nuscience birds. A main survey was used. We got a return of 12.5% which is about what we could expect.

70 percent of those replying indicated that birds are a problem.

We were particularly interested in learning if anyone knew of a bird roost of over 1000 birds. One quail hunter asked that he be informed if anyone located a quail roost of this size.

Starlings or the so-called long-tail black bird is the most important nuscience bird. Studies done on starling damage indicate that 1000 birds eat 65 pounds of grain a day.

There are two very effective poison pellets available to feedlot operators: 1. Starlicide is available from any Purina dealer, and 2. Torco sodium fluoride pellets are available from the Coop. Farm Bureau in Harrisonburg. Starlicide pellets are safe in cattle and hog lots and Torco pellets are safe in hog lots only.

All you need to do is prebait with clean pellets in a safe place where starlings will eat them. Once starlings begin to eat the clean pellets you switch over to poison pellets.

There are personnel with the Virginia Department of Agriculture, Bureau of Sport Fisheries and Wildlife and Extension Service who can help you.

Time to order strawberry plants for spring planting. I still like Earlidawn and Tennessee Beauty. Several have asked about Surecrop. Surecrop develops an abundance of runmers. Unless heavy thinning is carried out the result is small berries.

There are three new varieties that are worth trying: Redchief and Guardian which are midseason varieties and Marlate which is a new introduction from Maryland and is considered a very late variety.

* * *

The 1969 results of the farm variety test of Dark Tobacco are: Walkers Broad Leaf 1451 pounds $825 Ave. CWT $56.87, Lizzard Tail Orinoca 1499 lbs. $889 Ave. $59.36, Sears Special 1578 pounds $802 Ave. $56.51, Virginia 310 1717 pounds $927 Ave. $53.96, Virgina 312 1784 pounds $986 Ave. $55.28, Virginia 6309 1637 pounds $887 Ave. $54.17.

These variety plots were located in Charlotte, Prince Edward and Lunenburg counties.

* * *

At the Southside Experiment Station 59 Dark Tobaccovarieties, crosses, hybrids, and selections were grown in 1969. We took a look at these tobaccos last week.

This is the first time that hybrid dark tobacco has been tested in Virginia. There were two hybrids that looked pretty good.

A Kentucky introduction got more comments from buyers, warehousemen and growers than any other.

We're hoping to have a limited amount of this one grown here this year.

Hugh Braford and Charlie Moses attended the American - National Cattlemen Meeting in Washington last week.

PREVENT UGLY WRINKLES

The secret to getting away with less ironing is to prevent it in the first place. With today's new wrinkle-resistant fabrics. And today's new electric clothes dryer. Modern electric dryers have a lot of new wrinkles that keep permanent press and wash-and-wear clothes wrinkle free. When they come out of the dryer, they're ready to wear. Electric dryers cost less to buy, and have fewer moving parts to maintain. Buy a new electric dryer this month and get Vepco $15 installation allowance. Imagine laundry without ugly wrinkles. A powerful idea of tomorrow, today.
